

REINFORCEMENT-LEARNING-INSPIRED DevSecOps Continuous Feedback Loop

(conceptual analogy — no ML algorithm is implemented)

RL VOCABULARY MAPPING

- Agent**
Dev team / pipeline automation
- Environment**
Running application & infrastructure
- Action**
Commit, config change, deployment
- Reward Signal**
Scan, test & monitoring results
- Policy Update**
Updated standards & threat models

SIGNAL SPEED

- Minutes**
SAST · SCA · Secret Scanning
- Minutes-Hours**
Container Scan · DAST
- Hours-Days**
Monitoring · Logging · SIEM
- Days-Weeks**
Incident Analysis (root cause)
